Contents Volume 64, 1988

Genetic interpretation of a Lower Triassic paleosol complex based on soil micromorphology
U. P. Martins and H. W. Pfefferkorn (Heidelberg, F.R.G.) 1
Microbially influenced formation of phosphate nodules and megafossil moulds (Negev, Southern Israel)
D. Soudry and Z. Lewy (Jerusalem, Israel) 15
History of the last deglaciation in the Alboran Sea (Western Mediterranean) and adjacent North Atlantic as revealed by coccolith floras
P. P. E. Weaver (Godalming, U.K.) and C. Pujol (Talence, France) 35
Cenozoic palaeogeographic development of Northern Tunisia, with special reference to the stratigraphic record in the Miocene trough
J. Salaj (Bratislava, Czechoslovakia) and F. B. Van Houten (Princeton, NJ, U.S.A.) 43
Oxygen isotopes in phosphatic fish remains from Israel: paleothermometry of tropical Cretaceous and Tertiary shelf waters
Y. Kolodny and M. Raab (Jerusalem, Israel) 59
A 263-year record of summer temperature for northern Quebec reconstructed from tree-ring data and evidence of a major climatic shift in the early 1800's
G. C. Jacoby, I. S. Ivanciu and L. D. Ulan (Palisades, NY, U.S.A.) 69
The last interglacial high sea level in the granitic Seychelles, Indian Ocean
L. F. Montaggioni (La Réunion, France D.O.M.) and C. T. Hoang (Gif-sur-Yvette, France) 79
Lithofacies and origin of the Buckeye Formation: Late Paleozoic glacial and glaciomarine sediments, Ohio Range, Transantarctic Mountains, Antarctica
J. C. Aitchison (Dunedin, New Zealand), M. A. Bradshaw (Christchurch, New Zealand) and J. Newman (Christchurch, New Zealand) 93

Glaciation in Alaska: The Geologic Record by T. D. Hamilton, K. M. Reed and R. M. Thorson — J. E. Beget 105
Tropical Savannas by F. Bourlière — W. S. Benninghoff 105
Quaternary Extinctions. A Prehistoric Revolution by P. S. Martin and R. G. Klein — W. A. Clemens 108
The Beginnings of Birds by M. K. Hecht, J. H. Ostrom, G. Viohl and P. Wellnhofer — H.-J. Gregor 116
The Gulf of Aqaba: Ecological Micropaleontology by A. Reiss and L. Hottinger — K. Hopper 116
Numerical Methods in Quaternary Pollen Analysis by H. J. B. Birks and A. D. Gordon — C. R. Janssen 117
Announcement 118
Erratum 119
Introduction to the special issue
D. F. Williams (Columbia, SC, U.S.A.) 121
A model for interpreting continental-shelf hydrographic processes from the stable isotope and cadmium:calcium profiles of scallop shells
D. E. Krantz, A. T. Kronick and D. F. Williams (Columbia, SC, U.S.A.) 123
More light on photosymbiosis in fossil mollusks: the case of *Mercenaria "tridacnoides"*
D. S. Jones (Gainesville, FL, U.S.A.), D. F. Williams (Columbia, SC, U.S.A.) and H. J. Spero (Columbia, SC, U.S.A.) ... 141
Shape and isotopic differences between conspecific foraminiferal morpho-types and resolution of paleoceanographic events
D. F. Williams, R. Ehrlich, H. J. Spero, N. Healy-Williams and A. C. Gary (Columbia, SC, U.S.A.) 153
Paleoceanographic record of the last glacial/interglacial cycle in the Red Sea and Gulf of Aden
S. Locke and R. C. Thunell (Columbia, SC, U.S.A.) 163
Amazon Cone isotopic stratigraphy: evidence for the source of the tropical freshwater spike
W. J. Showers and M. Bevis (Raleigh, NC, U.S.A.) 189
Stable isotope stratigraphy of the Arctic Ocean: Fram Strait to central Arctic
T. H. Morris (Madison, WI, U.S.A.) 201
Chronology of the Pleistocene oxygen isotope record: 0–1.88 m.y. B.P.
D. F. Williams (Columbia, SC, U.S.A.), R. C. Thunell (Columbia, SC, U.S.A.), E. Tappa (Columbia, SC, U.S.A.), D. Rio (Parma, Italy) and I. Raffi (Parma, Italy) 221
Quantitative techniques in isotope chronostratigraphy
T. E. McKenna (Columbia, SC, U.S.A.), I. Lerche (Columbia, SC, U.S.A.), D. F. Williams (Columbia, SC, U.S.A.), and W. E. Full (Wichita, KS, U.S.A.) 241
Late Neogene laminated and opal-rich facies from the Mediterranean region: geochemical evidence for mechanisms of formation
M. W. Howell (Columbia, SC, U.S.A.), R. Thunell (Columbia, SC, U.S.A.), E. Tappa (Columbia, SC, U.S.A.), D. Rio (Parma, Italy) and R. Sprovieri (Palermo, Italy)..... 265
